^{1.} Includes estimated GST payable, after taking into account Reduced Input Tax Credits ("RITC").

^{2.} Performance: Distribution Return is the return due to distributions paid by the Fund, Growth Return is the return due to changes in initial capital value of the Fund, Total Net Return is the Fund return after the deduction of ongoing fees and expenses and assumes the reinvestment of all distributions.

SG Hiscock Wholesale Property Fund

30 June 2017

Fact Sheet

Commentary

The **S&P/ASX 200 Property Accumulation Index** fell 4.8% in June, underperforming the broader market (S&P/ASX 300 Accumulation Index) which rose marginally by 0.2%. Global Real Estate Investment Trusts (REITs) were the best performer, finishing June up 0.5%.

Domestic Economic Data

The most interesting data point for the month was the much stronger-than-forecast drop in the Unemployment Rate to 5.5%. Still the Under-Employment Rate remains elevated, highlighting the slack in the economy. This in-turn is leading to record low Wages Growth (something which the Reserve Bank of Australia Governor believes can be resolved by demanding a pay rise from your Employer). Coupled with rising Utility expenses and out-of-cycle Interest Rate hikes from the Banks, Retail Sales remains low relative to historical norms. Having said that, it rose a better than expected 1% on the latest monthly figures. Business Conditions remained positive and steady on the latest release, despite Private New Capital Expenditure remaining subdued. Dwelling Approvals were up on the latest figures but down approximately 17% over the rolling 12-months. Real Gross Domestic Product (GDP) was in-line with expectations but its sub-2% figure is the lowest since 2009. The Purchasing Managers Index (PMI) continued to rise.

The Australian Dollar rose materially, finishing just under US\$0.77. This was largely attributable to rising Coal and Iron Ore pricing. The 10 Year Bond Yield rose approximately 20 basis points to 2.6%, in line with the global trend of an expectation of a rising interest rates environment (despite this being less obvious in Australia).

Overseas Economic Data

In the **US**, the Federal Reserve (Fed) raised Official Interest Rates by a further 0.25% but highlighted a more gradual pace of Interest Rate rises going forward. The 10-Year Bond Yield rose 10 basis points to approximately 2.3%, whilst The Fed's preferred Inflation measure dipped to 1.7%, with The Fed not expecting Inflation to rebound above 2% by the end of 2017. GDP was upwardly revised for the second-consecutive month. The Unemployment Rate tightened once more, this time to 4.3% despite fewer jobs being created. Housing Starts, Industrial Production and Retail Sales all delivered falls on their latest data points. The PMI eased once again but remains positive.

In **Europe** the European Central Bank (ECB) hinted at the potential to eventually withdraw stimulus measures. This sent Yields up. The Bank of England in the **UK** also announced the same, with the same consequences to their Yields. The respective PMIs remained in positive territory, despite drops. Within the Eurozone, Germany is continuing to exhibit strong growth, with its economic growth rate revised upwards. Conversely, two Veneto-based Italian Banks were rescued by the Italian Government, at a cost of €17 billion. The latest Inflation figures within the Eurozone showed a dip back below 1.5%, with the ECB accordingly lowering their Inflation forecasts.

Japan's PMI remained positive, despite easing back a fraction. Industrial Production was notably up, as the Bank of Japan kept Interest Rates below zero, whilst continuing on with its Asset Purchases Program. The 10-Year Bond Yield continued to rise at a relatively steady pace throughout June.

In **China**, Industrial Production grew better than expected. This was despite the varying Manufacturing PMI data releases during June, intimating both a slight contraction and expansion. The Housing market flat-lined, as the tightening measures start to take effect. The MSCI announced Chinese Equities will join their Benchmark Indices.

The SG Hiscock Professional Property Fund (ARSN 089 419 358) gains exposure to its investments by investing in the SG Hiscock Wholesale Property Fund (ARSN 088 905 382).
